Instant Wireless Communications

Set up economical network links with AirLink wireless digital modems, within or between buildings, up to 30 miles away, in minutes. Just plug in your voice, computer, LAN, or videoconferencing equipment, set a few switches and you're ready to fly. Airlink modems come in various speeds: 64, 128, 256 kilobits/second, and fractional T1. No license, no red tape, no carriers, no wires. Contact: Cylink Corporation, 310 North Mary Avenue, Sunnyvale, California, USA, 94086. Toll-free (USA): 800-533-3958. FAX: 408-720-8294. Telephone: 408-735-5800. Worldwide sales & support.

Import: Cylink Corp., 4422 29th Avenue, Suite 100, San Diego, CA 92121
 Singapore: Cylink Corp., 4422 29th Avenue, Suite 100, San Diego, CA 92121

THINK FAST!

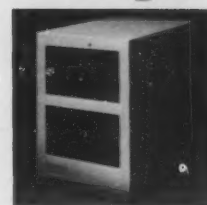

2 Gigabytes and Beyond

ATS provides a complete line of high performance, high capacity disc, tape, and optical solutions. Single drive and multiple drive external subsystems are available for PC, Macintosh, DEC, SUN, and RS6000 platforms as well as DOS, Novell, Unix/Xenix, and OS/2 operating systems.

ATS provides Pre and Post sales consultation from product selection through installation. Our in-house technical support team will provide "plug n' play" compatibility for most 300MB - 50GB ESDI and SCSI applications.

Call ATS today for our free Mass Storage Solutions Guide.

TRAINING VIDEOS

JANUARY 11, 1993 113

L of Tim Gendreau, certified NetWare Level II instructor and contributing author to the book *Inside Novell NetWare*, guide you on a step-by-step "hands-on" video tour of Novell NetWare.

From the basics of networking to advanced security techniques, novice network users will unlock the mysteries of NetWare administration. In this unique video series, you'll learn how to create and maintain users, groups, print servers, queues and much more. No expensive and inconvenient classes, plus everyone in your office learns for one low price!

As the President of Training Solutions, a Novell Authorized Education Center (NAEC) in Arizona, Tim Gendreau has taught hundreds of professionals the features and power of NetWare. With Tim as your "private tutor" you'll soon master your Novell Network.

Over 250,000 business, government, and educational professionals have used LearnKey's "Teach Me How Videos" to learn software such as Windows, WordPerfect, Lotus, DOS and now NetWare. 30-day money-back guarantee!

VOLUME 1 - NetWare Basics, Directory Structures, & Drive Mapping

You'll learn what hardware and software components are needed for a network, how to log-in, how to create and maintain a NetWare directory structure as well as how to create, modify, and delete network drive mappings and search drive mappings. 70 mins. - \$125.00

VOLUME 2 - Setting-up NetWare Security

Covers the basic concepts of NetWare security including passwords, rights security, inherited rights masks, trustee rights, attributes & file server security. You'll also learn how to control access to areas on the network and the tasks that can be performed by certain user types. 87 mins. - \$125.00

VOLUME 3 - Menu & File Server Utilities part 1

Explores the menu driven utilities of NetWare. You'll learn how to create and manage users and groups in NetWare's SYSCON utility as well as the supervisor options of SYSCON. 88 mins. - \$125.00

VOLUME 4 - Menu & File Server Utilities part 2

Covers additional menu utilities like FILER, SESSION, DISKSPACE and SALVAGE. Learn about file server utilities, NetWare Loadable Modules (NLMs) and Remote Console utility. 108 mins. - \$125.00

VOLUME 5 - Network Printing

Discover the printing services that are available on NetWare. Learn about utilities like PCONSOLE, CAPTURE, and NPRINT, plus how to create, configure, install and maintain the NetWare print server and print queues. 88 mins. - \$125.00

VOLUME 6 - Login Scripts

Introduces NetWare users to System, User and Default login scripts. You'll learn the order of execution, the commands to use in your login scripts and advanced tips for creating login scripts. 74 mins. - \$125.00

VOLUME 7 - Custom Menus

Find out how to customize the NetWare environment for your users. You'll learn how to create and maintain custom menu's, rights needed to create and execute these menu's and how to execute them automatically. 28 mins. - \$125.00

SYSTEM ADMINISTRATION SERIES SPECIAL

All 7 basic tapes **\$695.00** 20% OFF

OTHER NETWORK VIDEOS

NetWare 3.X Installation It's important that every administrator know how to install the operating system in case disaster strikes. This tape covers the hardware and software requirements of the file server and work station. 88 mins. - \$125.00

Installing WordPerfect 5.1 on a Novell Network Teaches the most efficient way to load and operate WordPerfect on NetWare. Eliminates many of the problems that stem back to the original installation. 101 mins. - \$125.00

Credit Cards, checks, money orders, and purchase orders accepted. Add \$5 shipping per order. Utah residents add 6.25% tax. Mail or fax orders to:
